Placoplatre® BA13 - EI 60 - 59dB - max 3,85m

Glass insulating strips are designed as thermal and acoustic insulation of pitched roofs and ceilings. Particularly energy-efficient insulation type, $\lambda_D = 0.033 \text{ W} \cdot \text{m}^{-1} \cdot \text{K}^{-1}$. Glass insulating strips are designed as thermal and acoustic insulation of pitched.

Key facts

- Pink face paper
- Brown reverse side paper
- Available in tapered and square edge
- Complies with EN 520 - Type F Thermal
- Conductivity 0.24W/mK

Marketing description

ThistlePro DuraFinish plaster is 60% more hardwearing than standard plaster providing excellent resistance to glancing impacts or accidental damage such as scratching, gouging or chipping. Ideal for high-traffic areas including corridors, stairwells and canteens in healthcare, leisure, social housing, education or office buildings, as well as busy hallways and rooms in houses.

ThistlePro DuraFinish plaster can be used on plasterboard or undercoat plasters, or for re-plastering and repair work on previously finished walls.

Any damage to small areas does not spread or cause debonding, making repairs easier.
